

Please to not deregulate the media! As Americans living in a democracy, we need to maintain local control over broadcast media. This country has many voices, and that must be represented in the media. This will not be possible if 4-5 corporations control all the content.

I do not like what ClearChannel has been doing. Please put an end to this monopolization! The public cannot afford to lobby like corporations. So kindly represent the interests of the people. Thank you.
